You can download the trial version of AutoCAD at [Downloading AutoCAD LT 2017](#): Log into your subscription center and expand out AutoCAD, then click the Download link. Then change the Export > Change this to Entire Project. If it still "sits and spins", then check out our blog: Right now there are no service packs or anything available so just click Close. Click the "About" button. Turn off or disable your Antivirus 8. See your system administrator for more information.". If you are following the Autodesk blog regarding this error but it still is not working you will need to verify the following in your setup.ini file: Copy the following string of text; EXE_PARAM=ACAD_CHECK_DOTNET=0

Open up the setup.ini in NotePad. On the right side of the dialog box find the Coordinates pull down and set it to Project Internal do not select shared. One VERY important thing has changed and this is most likely due to one of the new features regarding serial numbers and licensing. Contact us to learn more about Autodesk programs. • C:\program files • C:\program data • C:\users\appdata\local • C:\users\appdata\roaming\4. In the Navisworks Options Editor - Revit dialog box expand File Readers> and click on Revit. If you leave it checked, then deselect one of the programs at the end (like Recap) then if you modify the deployment it will no longer show Recap as a product you can install. Find the AutoCAD section and the Language pack section, AutoCAD Content and AutoCAD Content Language pack section. Delete the Autodesk folders in the registry under HKEY Current Users and HKEY Local Machine. Fill in the "Administrative image path" using a UNC location. If there is something already in the EXE_PARAM then add the EXE_PARAM=ACAD_CHECK_DOTNET=0 to the end of the section. On the left side of the dialog, click Turn Windows features on or off. Inventor 2016.2.9 Hotfix(Build 236) Inventor 2016 Service Pack 2(Build 236) These previous updates need to be installed prior to installing Inventor 2016 Service Pack 2: Subscription Customers Go to Management at the top Go to All Products & Services Find you product in the list Click on Downloads In the pop-up select Updates & Add-Ons Type in 'Inventor 2016 R' in the search field Download Inventor 2016 R2 and R3 For possible errors or failed installs when trying to update to SP1, R2 or R3, see this link: Inventor 2016 R2, R3 or Service Pack 1 fail to install The keyboard shortcut 'T' should work to bring up the Text command in an Inventor drawing when editing a sketch or placing text on the sheet. The latest version of AutoCAD and AutoCAD LT has been released. Get into Revit and open a blank project (any project will do but a blank one would be quicker). So what does the new AutoCAD 2017 installation wizard look like this time? There are a couple changes, but not much has changed. Training: Support: 888-528-4765 When you export your Revit model to Navisworks and open up the file and append the exported Revit link models, you notice that the objects are not lined up properly almost like the different Revit files have different coordinates. Training: Support: 888-528-4765 There are times that the Utilities are updated and you can get the Service Pack in one of two ways. This was on a new server running Windows Server 2012 R2. Click Apply then Ok and try using the 'T' shortcut to create new text in a drawing. Inventor 2014 needs all the latest updates installed(Service Pack 2 at a minimum) to be able to run on Windows 8, 8.1 or 10. You will need to change your export to Navisworks settings. Go to the Add-ins tab on the ribbon Go to the External Tools drop down menu and click on Navisworks to start the export command. In the Export Scene as..., Thanks to James O'Flaherty for the solution confirmation. Extract the utilities. Here is how to do that: windows-7 this requires a reboot of the computer. Then click Next. Here is a list of the export utility When installing your AutoCAD based 2016 software you keep getting a dialog box stating that ".net 4.5 is not installed. If you get this screen and the spinning circle does not disappear, then check back later by going into the deployments "Tools>Apply Updates" folder and run the shortcut. 2. After you've created the deployment and when a Service Pack, Update or Hotfix becomes available you can easily update the deployment by going into the Tools>ApplyUpdates folder and run the shortcut. If you un-check the box "Include only products..." then the deployment will include all programs included in the software. Go back to your email and click the link to download the utilities. Note: if the path gets too long you will not be able to install and will have to dig through the client side log files to find the 1603 error. There are Many more options when you select to create a deployment... And finally the bottom! Now click Create. A new feature that was introduced with the 2016 release is the new tool to add applicable service packs to your deployments. After its installed verify its up and running properly and that the updates are installed then move to the 2014 software. 2) Re-download the utilities and uninstall the existing version, then install the newer version. We typically un-check the "Create a network log file" as we've bumped into too may 1603 errors during installs because the user didn't have enough permissions to the share. There should be two Text commands(Sketch and Annotation categories) in the 'Assigned' filter and they should be assigned the 'T' key. I just put it at the end of the group and it works. Update your Video driver 3. In the Autodesk Diagnostic Tool Log File (located here: C:\Users\AppData\Local\Temp\EDMLog\DiagTool.xml) is this series of messages. Please do read the Service and License agreement, there have been subtle changes in the last few releases. Then select "I accept" and click Next. On Server 2012, 2012 R2 From Windows Server Manager, select Add Roles and Features from the Manage option to the top right. Make sure all the Autodesk software is up and running before any add-ons or extensions get back on the machine. We use network licenses... To obtain the license manager go to www.autodesk.com/licenses/tools Red X means the number is incorrect, green check means carry-on and that goes for both fields! Un-check the programs you do not need or want to install. Check that read access to the TestASP IIS Virtual Directory and its contents are allowed. Here is an example of AutoCAD's group and where I put the EXE_Param text string. Run the find command to find any empty EXE_PARAM. 1) Use the Update tool within the Utilities. When you run the program it should prompt you. Install: When you run Setup.exe you get the initial screen, click the Install button. In 2016 it should work fine. To use the Update tool: I'm using the Utilities for Revit 2015 as an example but any of our Utilities that have the update button should work the same way. Completely uninstall all Autodesk software then delete everything Autodesk in the folders on the C:. Here is our blog on removing and reinstalling the C++ 9. This is helpful when creating a deployment from a suite and you want multiple configurations. When development puts a newer version out with the service packed files, they use the same name for the .zip file to download. I know that the deployment installs and everything is fine but I have seen some instances where the deployment has corrupt components in it. However you have many more options when you create a "Deployment". First we'll go through the "Install" screens and then to the "Create Deployments" screens. If you find that this blog or the Autodesk blog doesnt fix the issue you will need to run the Microsoft .net framework cleanup tool First test this issue by having IT log into the machine as the local admin. This file is typically found in the installation folder located in the C:\Autodesk\your software name and version.i.e. Autodesk Product Design Suite 2016. Uninstall all Microsoft C++ starting with highest to lowest. Here is how to download your software If when reinstalling the software you get the message .NET 4.5 is not installed; then you will need to do the following Recently during the two-stage upgrade of a Vault Pro 2012 installation to Vault Pro 2016, which requires the intermediate step of installing Vault Pro 2014, the Autodesk Server Diagnostic Tool, which is a Vault installation pre-check test, stalls at the ASP Status Check stage with this message: Vista IIS Metabase Access is required. This is a new feature in AutoCAD. To verify the version you have installed you can either check the above Build number or go into Control Panel>Programs and Features and check the Version.Version without the service pack. With the service pack: Build number without the service pack. Done! To Manually Update the Utilities: Manually updating should always work as you are downloading the tool again and installing it fresh. It's just a newer version. BEFORE: #===== ACAD ===== [ACAD]PLATFORM=NATIVEPRODUCT_NAME=AutoCAD 2016 CoreSHAREDPROPERTIES_REQUIRED=INSTALLDIR;ACADSERIALPREFIX;ACADSERIALNUMBER;ACADSTANDALONENETWORKTYPE;ADSK_LAUNCH_MODE;LOCKSECURITYSETTINGS;LEGACYCODESEARCH;EXE_PATH=%platform%\acad\acad.msEXE_PARAM=EXTRA_FILES=acad;acad*.icoLOG=%tmp%\Autodesk AutoCAD 2016 Core Install.logROLLBACKABLE=YESHIDDEN=YESADMIN_INSTALL=YESDEPLOYMENTLANGUAGE=ACTION=INSTALLREMOVE_PATH=USE_EXTERNAL_UI=YESUI_SEQUENCE=PathCustomizationPage_ACADCanSpan=1AVAILABLELANGUAGES=en-US [ACAD en-US]DISK_LABEL=acad2016DISK_PROMPT=AcSetupRes.dll;11 #===== ACAD Language Pack ===== AFTER: #===== ACAD ===== [ACAD]PLATFORM=NATIVEPRODUCT_NAME=AutoCAD 2016 CoreSHAREDPROPERTIES_REQUIRED=INSTALLDIR;ACADSERIALPREFIX;ACADSERIALNUMBER;ACADSTANDALONENETWORKTYPE;ADSK_LAUNCH_MODE;LOCKSECURITYSETTINGS;LEGACYCODESEARCH;EXE_PATH=%platform%\acad\acad.msEXE_PARAM=ACAD_CHECK_DOTNET=0EXTRA_FILES=acad;acad*.icoLOG=%tmp%\Autodesk AutoCAD 2016 Core Install.logROLLBACKABLE=YESHIDDEN=YESADMIN_INSTALL=YESDEPLOYMENTLANGUAGE=ACTION=INSTALLREMOVE_PATH=USE_EXTERNAL_UI=YESUI_SEQUENCE=PathCustomizationPage_ACADCanSpan=1AVAILABLELANGUAGES=en-US [ACAD en-US]DISK_LABEL=acad2016DISK_PROMPT=AcSetupRes.dll;11 #===== ACAD Language Pack ===== You will do this again by finding the sections for language packs and object enablers. Install the newly extracted utilities. 5. Select the IIS 6 Metabase Compatibility option and click Next to complete the install. Scroll up and down selecting the options you need then sync it back up with the up arrow. Click Install. Run the Microsoft fix it tool and verify that no Autodesk software is in the list. Access more options by clicking the button to expand it. If you try to open the newly created nwc file and get a popup message that says: "File...nwc has an unknown version number" you will need to export or save the file in the correct version of Navisworks that you need. For example if you are using the Revit 2016 add-in to export to Navisworks you can only open the generated nwc file in Navisworks 2016. #===== Acad ===== You will then put the string of text that you copied earlier in the group(s). You may have more than one "Update" shortcut if you have multiple configurations for your deployment. They've re-designed it! Here are the new options. Scroll down to find the 'Command Name' In the 'Keys' column type in Tand hit enter. Create Deployments: Launch the Setup.exe and select "Create a Deployment". So C++ 2012, then 2010 and so on then . The sections are broken down by the # key and === symbols. Your software's name cannot be installed without this component. This page has some mighty helpful options. when you review your project inside Revit you notice that it seem perfectly lined up. I should have made the name shorter. Select IIS 6 Metabase and IIS 6 configuration compatibility option and click OK. Start to reinstall the software starting with the lowest version i.e. Revit 2013 and any AutoCAD based 2013 products. I was able to use this method yesterday. Click OK to close to the application. On Windows 7, 8, and 8.1 From the Windows Control Panel, select Programs and Features. Click the Update Software or the Updates, you can also go back and forth between "WELCOME" and "UPDATES" to refresh the screen. Uninstall any add-ons or extensions so that is not interfering with the Autodesk installs. For example: ACAD_CONTENT and the ACAD_CONTENT_LP (Language Pack) and ACAD_LP (Language Pack). If you are installing AutoCAD Electrical (ACADE) or AutoCAD Architecture (ACA) or AutoCAD MEP (MEP) you will need to find their sections within the Setup.ini and add the text to the groups as well. • All Revit updates; • All AutoCAD updates 10. Fill in the deployment configuration name. I don't use spaces because I create a lot of batch files and long filenames can be problematic. If you find this string empty add the ACAD_CHECK_DOTNET=0 to it. Uninstall the current Utilities. Notice it shows it is up-to-date, this is incorrect with the 2015 Utilities. Verify you have the correct build number or version in Control Panel. If you find that the T key isn't invoking the Text command and you see this in the Status Bar try the following steps: Go to the Tools Select Customize. Done! Contact us to learn more about Autodesk programs. It is still difficult finding information/downloads for them but I have found a few! Downloading AutoCAD 2017: Log into your subscription center and expand out AutoCAD, then click the Download link. dialog box, click on the Navisworks Settings...button to open the Navisworks Options Editor - Revit 5. The confirmed solution for this message was listed in the ASP Status Check Help details as this: IIS Metabase Access IIS Metabase Access is required. Even if you are a part of the admin group you still might have some permissions/restrictions on your windows login. To do this open your project in Revit: Here is a list of the export utility Verify in your project that your Revit links were all brought in using origin to origin. If logging in as the local admin still gives off the Runtime error IT can do the following:1. But in Inventor 2015 it doesn't always work when trying to add text on the sheet(it should work inside a sketch). Use the option "Detect problems and apply the fixes for me" then "Uninstalling". You can download the trial version of AutoCAD LT 2017 here: I was not able to find either one on the Virtual Agent yet: Running Inventor 2014 on a Windows 8, 8.1 or 10 machine you can get the following error and the program won't launch: The application was unable to start correctly (0x0000142). REBOOT THE MACHINE 7. Contact us to learn more about Autodesk programs. So your email with the original link will work just fine! Exit Revit. Click the IMAGINiT tab. Make sure that the feature is enabled by following these steps. Expand Internet Information Services and Web Management Tools. Here are the latest Inventor 2014 updates: Inventor 2014 Service Pack 2 Inventor 2014 Update 7 for Service Pack 2 See these Autodesk articles for more information: Inventor 2014 unexpectedly exits on startup on Windows 8.1 or Windows 10 Windows 10 support for Autodesk applications Windows 8, 8.1 support for Autodesk applications If you receive an orange banner across the top of your A360 dashboard notifying you that your trial has ended you need to do the following to get this resolved. Then Check all the updates you want to include. Note: The update button doesn't seem to work in my Utilities for Revit 2015, so I had to manually update it. or... Verify that the User account control setting is set to never notify. Select Next until the Server Roles dialog displays. In the Customize dialog box go to the Keyboard At the top right, under Filters choose 'Unassigned'. Click Update. Expand Web Server (IIS), Management Tools, and IIS 6 Management Compatibility. To eliminate the deployment being an issue I will state that in the past I have tested a clean reinstall by a fresh download to that machine. Please check the Service and License agreement before selecting "I accept" and clicking Next. Notice: we bypass the screen that prompts for the serial number, product key and if it's a standalone or network version. Here is the link to the Microsoft fixit tool: • Here is my blog on how to use the Microsoft fixit tool 6. Training: Support: 888-528-4765 Page 2 « February 2016 | Main | April 2016 » March 2016 Here's are the most current updates for Inventor 2016: Install the oldest to the newest starting with R2 (or SP1). If installing SP1, install SP2 next. Not much for install options while performing an "Install". Dont forget that they all have their own language pack section and content so scroll down to make sure you have added EXE_PARAM=ACAD_CHECK_DOTNET=0 to each of the sections.

In the eleventh book in the multimillion-selling Killing series, Bill O'Reilly and Martin Dugard reveal the startling, dramatic story of the global war against terrorists. In Killing The Killers, #1 bestselling authors Bill O'Reilly and Martin Dugard take readers deep inside the global war on terror, which began more than twenty years ago on September 11, 2001.
