Do you want to play: Merge Dragons Mod Apk Dragon Mania Legends Reviews Bella Kaufmann: I dont know if its the new event, but the game has been really buggy lately. My food on the farms keeps disappearing, i keep getting sent back to chapter 1 of the dice event, my progress on the actual board keeps getting pushed back and even though it seems to give me back my emberstones, i lose whatever pieces i collected that lap. I had a card that gave me 45 pieces for the red horn dragon, and now i only have about 5. This is my favorite game, but these bugs are making it hard to love. Adele Baxter: We love this game but the recent update has ruined it. It's not saving any of what we're doing anymore except using our food up etc so we're missing out on making progress in the big event. It also keeps randomly reloading or shutting off and it's harder to get to the quests bit in the clan. Please fix!!! Delania Weatherwax: I very much enjoy hatching, and breeding these sweet dragons. They are adorable! 5 stars to the dragon designers! However I have Not recieved several in game rewards. Like, My dragons for getting to higher levels, and the VIP rewards are NOT ADDING IN... There seems to be some serious technical problems with the in game rewards. I still love this game Dragon Mania Legends is a game for Android mobile devices from Gameloft SE.
